COMPANY

Who we are

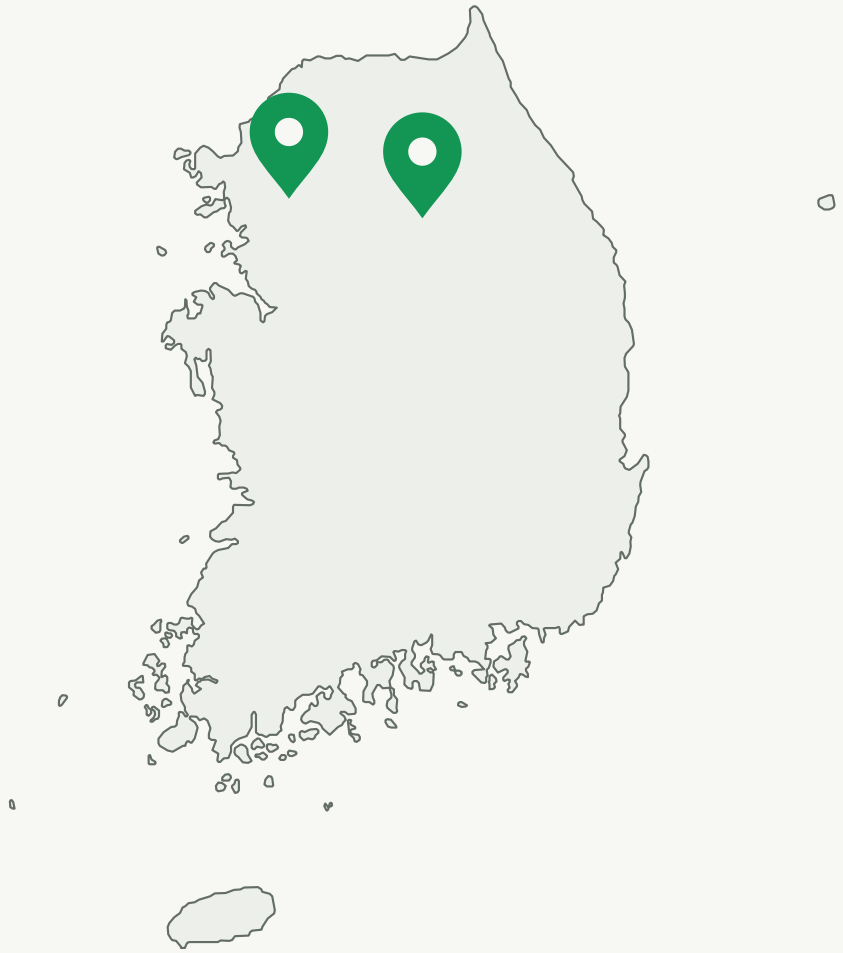

A Healthy future and a Good Life

Asia's Leading Manufacturer of

Health Supplement

Provide ODM/OEM[1)]	Service with our technology and know-how
One-stop Service	in Health supplement manufacturing
Customer Satisfaction	with quick response and high-quality products

1) ODM: Original Development & Design Manufacturing, OEM: Original Equipment Manufacturing

COMPANY

Our Presence

Locations

Seoul Office, Korea

- Sales and Business Development Team

Hoengseong Plant 1, Korea

- Head office, R&D Center, solid dosage manufacturing site

Hoengseong Plant 2, Korea

- Expansion for Liquid and Soft capsule manufacturing

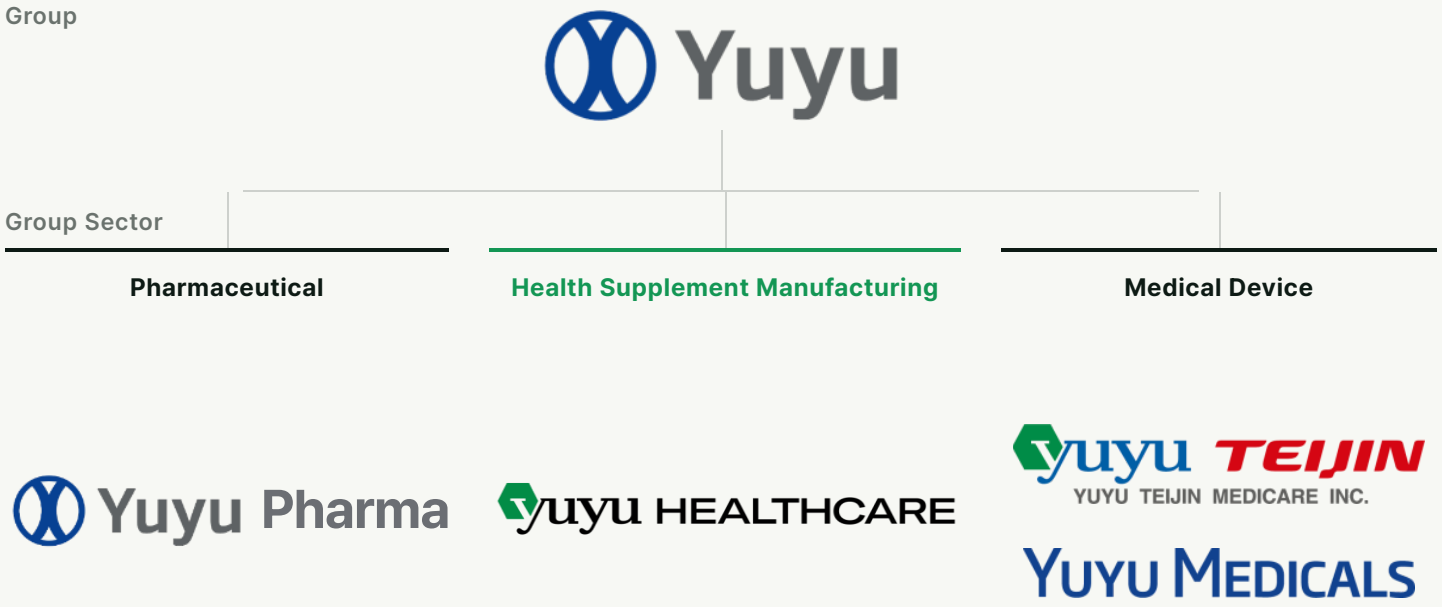

COMPANY

Yuyu Group

Over

80

years of total healthcare group since 1941

COMPANY

Our Strength

Create value with high standard and long-term relationship

01

PRODUCTS

Product Portfolio

Customized formulation options

Types

Tablet MOQ

400,000 Tablets

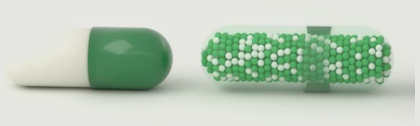

200 – 1,700mg

Mini Tablet MOQ

100,000 Tablets

50 – 1,000mg

Hard Capsule MOQ

400,000 Capsules

200 – 1,700mg

Soft Capsule MOQ

300,000 Capsules

500 – 1,000mg

Powder MOQ

1,000 kg

1,000 – 20,000mg

Granule MOQ

240,000 Sticks

2,000 – 6,000mg

Pill MOQ

500 kg

50 – 80mg

Liquid MOQ

300,000 Sticks

10 – 70ml

Jelly MOQ

300,000 Sticks

15,000 – 20,000mg

Chewable Tablet

Feature

Wide range of formulation types and sizes

Chewable tablet, Animal shaped tablet available

Water-based coating with natural dye and vegetable pigment

Excipient-free (no silicon dioxide, magnesium stearate, HPMC, etc.)

PRODUCTS

Product Portfolio

Various formulations

Tablet (Mini tablet available)

400 ~ 600mg | 500~800mg | 700~1,400mg | 800~1,500mg

200~2,200mg | 800~1,400mg | 800~1,400mg | 800~1,400mg | 800~1,400mg

Hard Capsule

No. 1, No.0, No.00 | Enteric coating

Soft Capsule

155mg | 300mg | 500mg | 800mg | 900~1,000mg

Powder
1,000 ~ 20,000mg

Granule
2,000 ~ 6,000mg

Jelly
15~20g

Liquid
10~70ml

Pill
50 ~ 80mg | 3~ 5 Φ, 15.5~16.5 Φ

PRODUCTS

Packaging Portfolio

Customized packaging options

Feature

- Sufficient packaging capacity
- Dedicated molds manufacturing according to customer’s request
- Customized private labeling
- Using eco-friendly materials
- Flexible lead time to meet customer’s needs

Integrated Manufacturing Plant

Brand-new facility and expansion for sustainable growth

Plant 1

Site area of

6,024m²

(Total area: 19,922m²)

- Head Office
- Core production: **tablet, hard capsule and powder**
- Production capacity upgraded to **40mil$** sales revenue
- Expanded tablet, packaging and utility facilities in 2025
- ERP / FSSC 22000 certified system

Plant 2

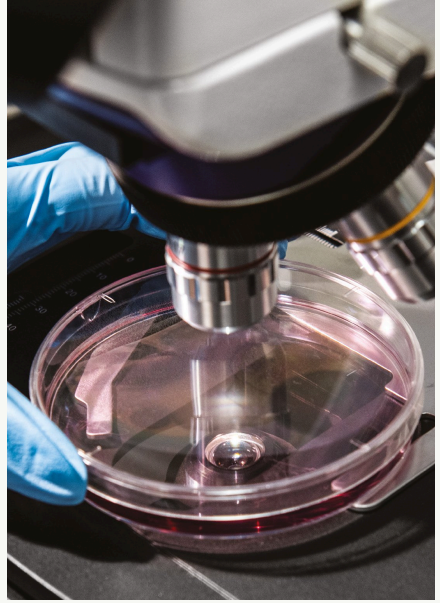

Site area of

7,061.01m²

- R&D Center
- Core production: **liquid, Jelly and soft capsule**
- Planned capacity of up to **20mil$** sales revenue
- Certification and commercial production in preparation

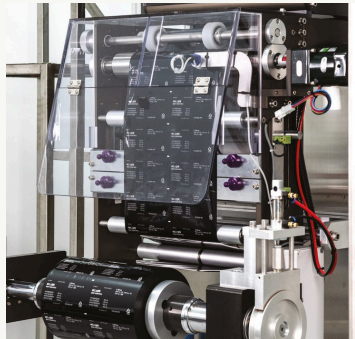

PRODUCTION, QUALITY & R&D

Production Facilities

Quality Management

Monitoring the whole process with advanced equipment

01

Receiving Raw-materials

Functional / Hazardous test of Raw-materials

02

Semi-finished goods

- Automatic Sorting System
- Metal detection system
- Check weigher
- X-ray inspection

03

Finished goods

Functional / Hazardous test of Finished goods (In-house)

PRODUCTION, QUALITY & R&D

Certifications

Distributing reliable, high-quality supported

FDA certified Manufacturing Facility	Food Safety System Certification	Good Manufacturing Practice	Hazard Analysis and Critical Control Point	Organic Product

R&D Capability

Innovative ingredient & formulation

Future Plan

Continuously research of active natural ingredients

Immune health, Hair health, Fat Reduction, Muscle health, Height growth, Vascular health

Recent Achievement

Germinated Black Rice originating for hair health – Patent registered	10-2022-0024060
***Eucommia Ulmoides* Extract** for preventing diseases related to muscle loss – Technology transferred and Patent registered	10-2014-0054193
2 patents registered for Immune enhancement effects of a **Black Radish Extract** (*Raphanus sativus* L.) and ***Zanthoxylum Piperitum* Extract**	10-2022-0158262, 10-2022-0158263
Patent Application for a Hair Loss Prevention Composition Containing **Germinated Black Rice and a *Cynanchum wilfordii* Complex Extract**	10-2023-0109336
Development of new products through research on various material and formulations (Floating bead granulation, Long-acting [slow dissolving] tablets)	

R&D Capability

Formulation development

Mini Tablet

- Easier swallowing with small size(4mm)
- Flexible and precise dosing
- Improved user experience

Specialized in Fluid-bed Granulation

- Instant solubility
- Improvement of taste and mouthfeel
- Beadlet formulation development

Extended-release Tablet

- Development of sustained-release tablets such as vitamin C and B
- Stability test (Vitamin C 1000mg/12hr-24hr)

Shelf Life Determination

- Standard component analysis and method validation
- Stability evaluation and testing
